Energy Policy

Brindleyplace is a vibrant and prestigious mixed-use city centre development, comprising office, retail, leisure and approximately 30 bars and restaurants.

Brindleyplace is committed to reducing energy across the development. This policy provides a framework to demonstrate its commitment to energy reduction.

Brindleyplace aims to:

- Reduce energy and water consumption through the identification of energy saving measures and smarter working practices
- Reduce carbon emissions through the achievement of the above,
- Purchase energy in the best interests of its tenants
- Promote the importance of the reduction of energy usage for the benefit of the environment to Brindleyplace tenants and the wider community.

Brindleyplace commits to:

- Record energy usage on a continual basis
- Monitor and review energy performance to identify trends and opportunities to improve energy performance
- Introduce smart metering wherever possible to improve monitoring methods.
- Set and review energy objectives annually
- Promote and deliver energy awareness campaigns.
- Comply with all relevant legislation
- Review and update this policy on an annual basis

We will document our practices and procedures in our Environmental Management System and this will provide a clear and auditable trail of the actions we have taken and the progress we have made.

Signed:

Director
