Environmental Policy

Brindleyplace is a vibrant and prestigious mixed-use city centre development, comprising office, retail, leisure and approximately 30 bars and restaurants.

Brindleyplace is committed to improving its environmental sustainability with regard to all property and facilities management activities carried out on behalf of the development and its tenants.

Brindleyplace aims to:

- Reduce its carbon footprint through the scrutiny and improvement on existing practices and procedures, including its supply chain, where possible.
- Reduce energy and water usage
- Maximise recycling opportunities and reduce waste to landfill
- Contribute to and work with the local community through its CSR programme.

Brindleyplace commits to:

- Comply with all relevant legislation
- Continually improve its environmental performance and work to prevent pollution
- Set and review environmental objectives and targets, assign environmental responsibilities and communicate these to all persons working for or on our behalf.

We will document our practices and procedures in our Environmental Management System and this will provide a clear and auditable trail of the actions we have taken and the progress we have made.

Signed:

Director
